EXCEPTIONAL FRANCHISE OPPORTUNITY

Your Executive and Management Skills ~ Power to Be Profitable

Summer 2009

Owners of large and small businesses are admittedly living through one of the most difficult markets we will experience in our lifetime.

With that being said, there is a growing need for business owners to receive accurate and forward thinking advice to help them succeed in this economy. This is why the business coaching industry is one of the most sought after professions. Business coaching involves many of the skills you have already mastered such as, time and money management, networking, people skills and marketing, to name a few.

We are offering you an opportunity to become a part of the world's number one business coaching firm. This opportunity has excellent return on your investment with a low capital requirement. These franchises have been approved by the S.B.A. and the Government has recently expanded opportunities to more easily qualify for S.B.A. loans.

These unique franchises are offered on a national scale and are internationally recognized. They have a proven, specific methodology that involves company training as well as support. What that means to you, is a more immediate return on your investment.

Chesnut and Cape Capital Partners are aware that regardless of the rapid changes in the business environment an opportunity still exists for people with entrepreneurial skills. If you would like more information to reach the goals of a successful business ownership; inquire by submitting an inquiry on our "Contact Us" page or by calling our Franchise Specialist, Amanda Walk, directly.
